The Orlando Dermatology Aesthetic & Clinical conference fully complies with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of special accommodations, please contact a conference representative or visit the Registration Desk.

COMPLIMENTARY WIFI

Supported by JDD

For your convenience, there is complimentary WiFi to all attendees throughout the general conference area. To connect, select the wireless network "xpoconnect." Once you have connected to "xpoconnect," open your internet browser and refresh the page.

Enter LOGIN: ODAC2016 and PASSCODE: JDDsanova.

AUDIENCE RESPONSE SYSTEM

The conference utilizes audience response technology for live interactive audience participation during general sessions. For assistance during the conference, please visit the Educational Measures help desk located outside the Osceola Ballroom.

SAVE THE DATE - ODAC GOES TO MIAMI!

JANUARY 13 - 16, 2017, National Doral, Miami, Florida Beginning February 2016, visit OrlandoDerm.org for more information or email info@orlandoderm.org to receive early bird specials.

OFFICIAL MEDIA PARTNERS

The *Journal of Drugs in Dermatology* (JDD), a highly-cited, peer-reviewed publication indexed with MEDLINE®/PubMed®, offers one of the fastest routes to disseminate dermatologic information. Now in its 14th year of publication, JDD presents original articles, award-winning case reports, and timely features pertaining to new methods, techniques, and drug therapy in dermatology.

JDDonline.com

The Derm Directory is the most comprehensive product reference guide in dermatology, created to be a valuable resource for dermatology healthcare professionals. The Derm Directory serves as a complete compendium of therapeutic and cosmetic modalities, including drugs, devices, injectables, skin care, and sunscreen.

TheDermDirectory.com

SUPPORTING ORGANIZATION

Advanced Resident & Training & Education (ARTE) in Dermatology is a comprehensive year-round educational mentoring program that brings together dermatology residents, physician thought leaders, and industry partners.

OrlandoDerm.org/arte

For general conference information please visit the Information Desk.

DEFINING THE FUTURE OF DERMATOLOGY

A Message from Our Conference Chair

Now heading into its 13th successful year, the ODAC conference provides the perfect balance of medical and aesthetic training, delivering a comprehensive and compelling look at the practice of dermatology.

In today's competitive medical climate, successful practitioners know the importance of staying relevant in our rapidly evolving field. For 13 years, the ODAC educational program has presented progressive medical, surgical, and cosmetic techniques delivered by the foremost thought leaders in dermatology in a highly interactive and impactful way.

In keeping with our core mission of 'defining the future of dermatology,' ODAC will again bring attendees the 'What's Hot' panel discussion. Join us to witness first-hand the next generation of exciting products and equipment as well as cutting-edge procedures and techniques. This will prepare you to better serve patients, and enrich and enhance your overall practice.

By popular demand and in keeping with our commitment to provide educational opportunities for the advanced and the new practitioner, we proudly continue our partnership with the Advanced Resident Training and Education (ARTE) scholarship program, welcoming over 150 dermatology residents representing top programs from across the country.

Welcome to ODAC. We're pleased to be able to provide you with opportunities to build critical skills and help expand your offerings to ensure the continued success of your career and your practice.

James Spencer, MD, MS

Medical Director

Spencer Dermatology & Skin Surgery Center, St. Petersburg, FL

ORLANDO
DERMAESTHETIC
& CLINICAL
CONFERENCE

WELCOME TO ODAC

Dr. Jill Waibel

ODAC Keynote Speaker

The Orlando Dermatology Aesthetic & Clinical conference is excited to welcome Dr. Jill Waibel as the keynote speaker for this year's conference!

Laser expert and dermatologist Jill S. Waibel, MD, will provide the keynote speech, "Lasers for Trauma Rehabilitation: Giving Humans the Power to Heal Themselves." She was recently featured in national news coverage regarding her work in using the latest advancements in lasers to help heal the scars of Kim Phuc. As a child, Ms. Phuc was severely burned by napalm during the Vietnam War, an experience that was captured in an iconic, Pulitzer Prize winning image. Dr. Waibel has received numerous awards for her contributions to medicine, including an award given by Surgeon General Koop. She has been nationally and internationally recognized for her innovative work treating patients with traumatic burn injuries with lasers.

She is a two-time recipient of the American Society of Dermatologic Surgery Cutting Research Award and was named "Person of the Week" by David Muir on ABC World News Tonight. Dr. Waibel lectures nationally and internationally and has published over 50 peer-reviewed journal articles and several textbook chapters.

AGENDA AT A GLANCE

ICD-10: Keeping It Simple So You Keep Getting Paid

Thursday 2/25/16 7:00pm - 8:30pm ET

Register at NextStepsinDerm.com/Dermatology-Webinars

Presented by Adam Friedman, MD
Associate Professor of Dermatology
Residency Program Director
Director of Translational Research
GW University

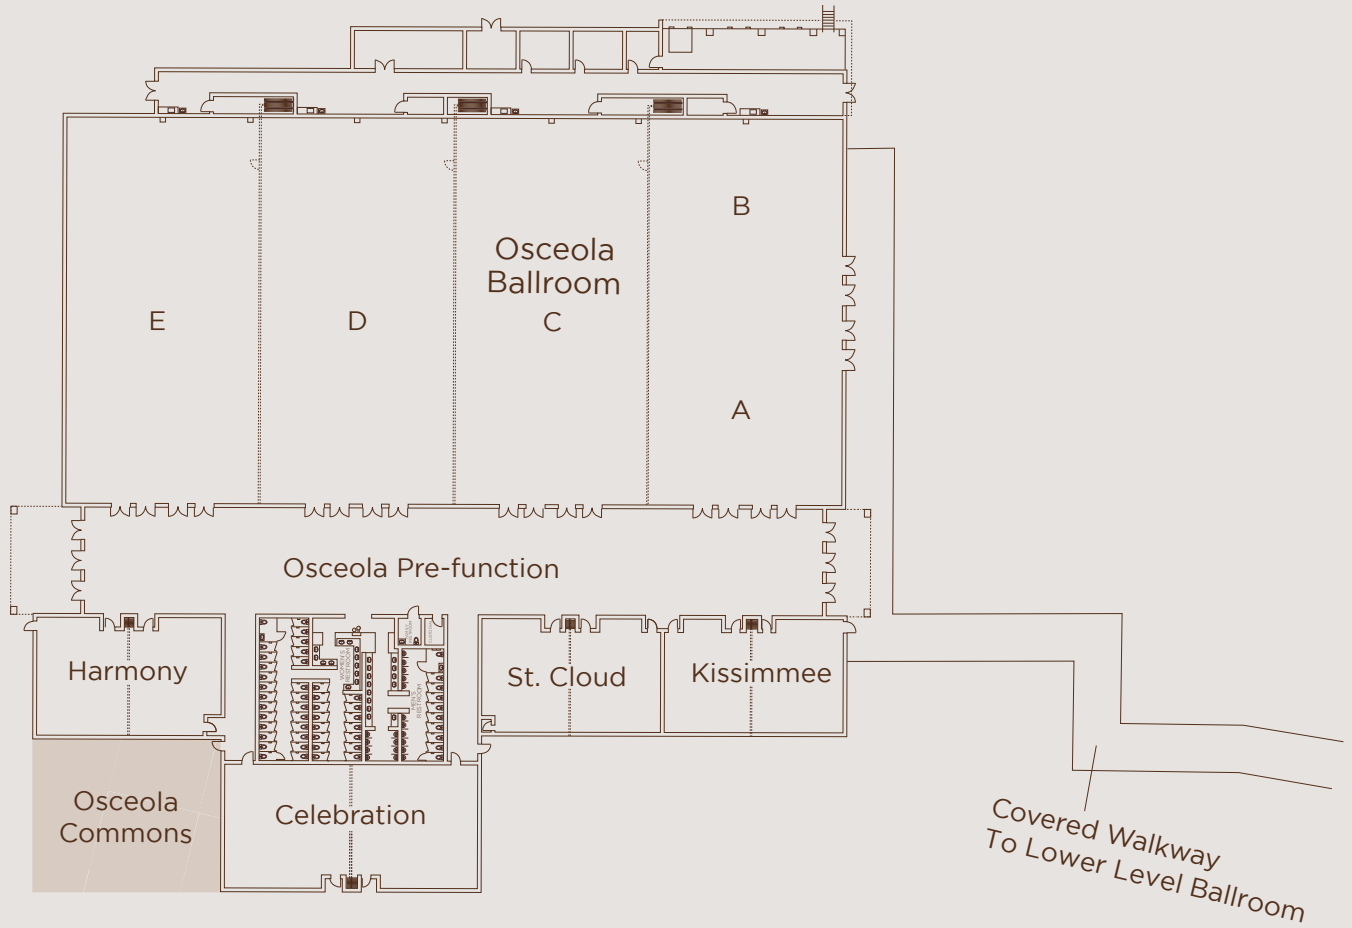

Let Dr. Adam Friedman help you navigate a smooth transition to ICD-10. His talk will cover:

- How to prepare documentation that is understandable AND provides the necessary information
- How to integrate current coding requirements into your day to day practice
- How to identify pitfalls associated with over or under coding
- How to understand changes implemented resulting from the transition to ICD-10

About our 2016 Sponsors

Allergan | Allergan's Total Rejuvenation™ portfolio is where science and aesthetics meet. The portfolio provides medical specialists and their patients with the most comprehensive, science-based aesthetic product offerings available.

Aurora Diagnostics | Aurora Diagnostics is focused on servicing the unique needs of today's dermatologist with customized dermatopathology and professional services. Our expert, board-certified dermatopathologists render accurate diagnoses reported in the language of clinical dermatology. Our professional services include expert consultations, physician and patient educational resources, and practice management tools designed to optimize practice workflow.

Aveeno | The AVEENO® Brand, one of the brands of Johnson & Johnson Consumer Products Company, Division of Johnson & Johnson Consumer Companies, Inc., offers a complete line of skin and hair care products featuring ACTIVE NATURALS® ingredients to provide gentle, yet effective solutions for all skin types. Trusted by dermatologists for more than 60 years, AVEENO® is committed to developing breakthrough product formulations with new and existing natural ingredients that deliver clinically proven results. For more information about the AVEENO® Brand and its product offerings, visit aveenomd.com.

DUSA | DUSA Pharmaceuticals, a Sun Pharma Company, is an integrated, dermatology pharmaceutical company focused primarily on the development and marketing of its Levulan® Photodynamic Therapy (PDT) technology platform. Levulan Kerastick® plus blue light illumination using the BLU-U® blue light photodynamic therapy illuminator is currently approved for the treatment of Grade I or II AKs of the face or scalp.

Galderma | Dating back to 1961, Galderma is now present in 80 countries with an extensive product portfolio to treat a range of dermatological conditions. The company partners with health care professionals around the world to meet the skin health needs of people throughout their lifetime. Galderma is a leader in research and development of scientifically-defined and medically-proven solutions for the skin, hair and nails. Strategic brands in the U.S. include Epiduo® Forte, Oracea®, Clobex®, Differin®, Mirvaso®, MetroGel®, Soolantra®, Vectical®, Tri-Luma®, Cetaphil®, Benzac® Acne Solutions, Restylane®, Restylane® Silk, Restylane® Lyft, Dysport®, and Sculptra® Aesthetic. For more information, please visit www.galdermausa.com.

Genentec | Considered the founder of the biotechnology industry, Genentech has been delivering on the promise of biotechnology for more than 35 years.

Inmode | InMode's technology advancements are the new gold standard for aesthetic medicine. InMode has revolutionary non-invasive options for fractional skin treatment and contraction (Fractora), skin tightening (Forma&Plus), ultra-fast diode hair removal (Diolaze), peak power photofacial for skin pigmentation and vascular lesions (Lumecca), and cellulite reduction/body contouring (BodyFX).

La Roche Posay | Recommended by more than 25,000 dermatologists worldwide, La Roche-Posay offers a unique range of daily skincare developed with dermatologists to meet their standards in efficacy, tolerance and elegant textures for increased compliance. For additional information, visit www.laroche-posay.us

Lutronic | Lutronic, a leading innovator in advanced aesthetic and medical laser and related technology, was established in 1997 to bring intuitive, robust, versatile devices that are affordable and efficacious to the worldwide medical community. Committed to improving medicine, Lutronic partners with key opinion leaders to advance science and ensure the efficacy of its systems. All systems are versatile and offer multiple settings and treatment options for customized treatments, which optimize outcomes for a wide variety of conditions and treatments including melasma, tattoo removal, soft tissue incision, vascular lesions, hair removal, wrinkle reduction, rejuvenation, body/face contouring, chronic pain, healing and more.

Merz | Merz North America is a specialty healthcare company that develops and commercializes innovative treatment solutions in aesthetics, dermatology and neurology in the U.S. and Canada.

Next Steps | Next Steps in Derm is a complimentary online resource center built to meet your needs as a new physician in the field of dermatology. This resource has been carefully curated from the experience of expert physicians and with the advice of leading Thought Leaders in the industry. Next Steps in Derm provides you with the tools and guidance you need to develop your practice and navigate your career - including monthly articles and videos, a newsfeed containing trending dermatology news, live webinars and Q&A sessions, a quarterly 'Best Of' booklet featuring most-read articles from the website, and access to a monthly eNewsletter that brings the latest articles to your inbox. Next Steps, sponsored by AVEENO® ACTIVE NATURALS®, provides you with all the tools you need for making post-residency choices and implementing successful practice management.

Novan | Novan is a privately-held, clinical stage biotechnology company advancing therapies for skin diseases using drugable nitric oxide. The company's lead product candidate, SB204, is an investigational drug product in late-stage development as a new treatment for acne vulgaris and is anticipated to enter Phase 3 clinical testing by Q1 2016.

P&G | Procter and Gamble partners with leading health care professional and scientists to develop breakthrough products that help improve the quality of patients' lives.

Sciton | Sciton is a leading manufacturer and provider of superior laser and light based aesthetic solutions. Sciton systems are designed to grow with your practice. When the needs of your practice expand, you can upgrade your existing system with new and innovative modules allowing you to offer more treatment options. Stop by the Sciton booth to learn more about the latest laser technology with minimal downtime & maximum results using the world's first and only hybrid fractional laser.

SkinCeuticals | SkinCeuticals professional skin care, formulated to correct signs of aging, protect healthy skin, and prevent future damage, is used for daily homecare and to complement aesthetic procedures.

SkinMedica | SkinMedica an Allergan Company® is committed to providing aesthetic skin care solutions exclusively to our physicians. Our complete line of skin care products includes the revolutionary TNS Essential Serum, clinically proven to improve the appearance of fine lines and wrinkles. Our newest innovation, Lytera Skin Brightening Complex reduces the appearance of dark spots to reveal a natural, more radiant skin tone. This commitment extends to our unique educational programs that enhance patient outcomes and build strong customer loyalty.

TaroPharma | Taro is a multi-national, science-based pharmaceutical company dedicated to meeting the needs of its customers through the discovery, development, manufacturing and marketing of the highest quality healthcare products.

THANK YOU to the Supporters and Exhibitors whose dedication to the dermatology community makes this event possible!

About our Exhibitors

2016 EXHIBITORS

dermLite® 3Gen | 3Gen, Inc. manufacturers the DermLite brand of skin imaging devices.

Acuderm | Acuderm is proud to feature the Conmed Hyfrecator 2000 at this year's ODAC. In addition, we welcome the opportunity to show you our expanded line of high quality German Stainless Steel instruments at significant savings. As with all our products, we offer 100% satisfaction guarantee! We look forward to meeting you and serving your needs.

Advanced Dermatology & Cosmetic Surgery | Advanced Dermatology & Cosmetic Surgery (ADCS) is the largest dermatology clinic in the country (60 clinics) and offers a premier practice management service called Ameriderm.

Allergan | Allergan's Total Rejuvenation™ portfolio is where science and aesthetics meet. The portfolio provides medical specialists and their patients with the most comprehensive, science-based aesthetic product offerings available.

Alma Lasers | Alma Lasers is a global innovator of laser, light-based, radiofrequency and ultrasound solutions for the aesthetic and surgical markets. We enable practitioners to offer safe and effective procedures while allowing patients to benefit from state-of-the-art, clinically proven technologies and treatments.

Aurora Diagnostics | Aurora Diagnostics is focused on servicing the unique needs of today's dermatologist with customized dermatopathology and professional services. Our expert, board-certified dermatopathologists render accurate diagnoses reported in the language of clinical dermatology. Our professional services include expert consultations, physician and patient educational resources, and practice management tools designed to optimize practice workflow.

Aveeno | The AVEENO® Brand, one of the brands of Johnson & Johnson Consumer Products Company, Division of Johnson & Johnson Consumer Companies, Inc., offers a complete line of skin and hair care products featuring ACTIVE NATURALS® ingredients to provide gentle, yet effective solutions for all skin types. Trusted by dermatologists for more than 60 years, AVEENO® is committed to developing breakthrough product formulations with new and existing natural ingredients that deliver clinically proven results. For more information about the AVEENO® Brand and its product offerings, visit aveenomd.com.

Bayer | Bayer HealthCare is one of the world's leading, innovative companies in the healthcare and medical products industry, and combines the activities of the Animal Health, Consumer Care, Medical Care, and Pharmaceuticals divisions. As a specialty pharmaceutical company, Bayer HealthCare provides products for Cardiopulmonary, Hematology, Neurology, Oncology, Dermatology and Women's Healthcare.

Bio-oil | Bio-Oil® is a specialist skincare product that helps improve the appearance of scars, stretch marks, and uneven skin tone. Its advanced formulation, which contains the breakthrough ingredient PurCellin Oil™, also makes it highly effective for numerous other skin concerns including aging and dehydrated skin. Learn more www.biooilhealth.com.

BTL | BTL's aesthetic division manufactures non-surgical RF devices that represent the best in body contouring, skin tightening and wrinkle reduction. Exilis ELITE™ treats the face and body; portable Protege ELITE™ targets the face and neck. Vanquish™ delivers sub-cutaneous heating for body treatments based on induced apoptosis using a contact-free, operator-monitored clinical approach.

Canfield | Canfield Scientific is the leading worldwide developer of imaging software and photographic systems for the medical and skin care industries. Product lines include Mirror® imaging software, VISIA® Complexion Analysis, VECTRA® 3D Systems, Reveal® facial imagers, VEOS™ dermatoscopes, customized photographic studio solutions and specialized imaging devices for clinical photography.

Celgene | Celgene is a global biopharmaceutical company whose mission is to deliver truly innovative and life-changing drugs to its patients, focusing on treatments for cancer and severe immune, inflammatory conditions. Most recently, Celgene received FDA approval for its new oral treatment for psoriasis and psoriatic arthritis, Otezla, which provides a beneficial alternative to current injectable treatments. Otezla is an oral small-molecule inhibitor of phosphodiesterase 4 (PDE4) specific for cyclic AMP (cAMP). PDE4 inhibition results in increased intracellular cAMP levels, which is thought to indirectly modulate the production of inflammatory mediators.

ContextMedia | ContextMedia Health is the leading provider of digital solutions at the point of care, delivering hyper-targeted health information when and where it improves health outcomes.

Crystal Clear Digital Marketing | Crystal Clear Digital Marketing offers a complete digital marketing system: from search engine optimization, search engine marketing, social media engagement, websites, email marketing, mobile & text marketing, patient relationship management and so much more! Crystal Clear does most of the work so local practices don't have to.

DermAvance | DermAvance Pharmaceuticals sells and markets products to aesthetic physicians for in-office dispensing during non-surgical procedures. The company's lead product is a Rx Hydro-Q 4% Gel for the treatment of hyperpigmentation. Additionally, the company sells Arnika Forte to speed the healing after filler and surgical procedures. DermAvance just recently introduced the latest advanced retinoid for in-office dispensing. Stop by our booth and learn how we can augment your in office procedures.

Dr.com | Doctor.com is a marketing automation & reputation management platform for medical practices. Products include ProfileSync™, a service to update listings on healthcare and business directories; the ReviewHub™, a device that captures and publishes reviews to leading consumer health websites; and SiteEnhance™, custom code that transforms websites with advanced interactivity.

DUSA | DUSA Pharmaceuticals, a Sun Pharma Company, is an integrated, dermatology pharmaceutical company focused primarily on the development and marketing of its Levulan® Photodynamic Therapy (PDT) technology platform. Levulan Kerastick® plus blue light illumination using the BLU-U® blue light photodynamic therapy illuminator is currently approved for the treatment of Grade I or II AKs of the face or scalp.

Elsevier | ELSEVIER, a leading publisher of HS publications, delivers superior reference and decision support tools. Print, online, handheld—we can provide the information you need fast!

EltAMD | EltAMD® product development expertise is based on our medical heritage. EltAMD applies that experience to create innovative products that help develop, protect and maintain healthy skin. Available through your dispensing physician, EltAMD sun care and skin care products are formulated for every skin type, lifestyle and special need.

Encore | Encore is committed to delivering innovative prescription therapies and medical devices to dermatologists focusing on customer service and improving the quality-of-life for patients. Encore will have a wide range of medical dermatology products, treating a number of topical disease states such as acne and atopic dermatitis.

About our Exhibitors

2016 EXHIBITORS

Envy | Envy Medical is one of the most exciting medical technology companies to emerge in the field of dermatology and medical aesthetics. Founded by Ken Karasiuk, the company flourished as a result of the 2002 patented invention of Diamond Dermalinfusion, a non-invasive skin therapy, primarily marketed under the SilkPeel™ brand of medical devices. SilkPeel is already a gold standard for leading dermatologists and cosmetic surgeons for treating acne, hyperpigmentation, photo-damage, fine line wrinkles and minor scarring on the face and body.

Feel Good | Feel Good, Inc. provides portable TENS units that offer a wide variety of benefits, including alleviating pain, improving circulation and regulating sleep patterns. Increasing circulation helps keep skin looking and feeling healthy! Our units are safe and non-invasive for easy use at home, work, or on the go.

Ferdale | Ferdale Healthcare® Inc. provides superior, value-added products to consumers and patients that enhance their quality of life. Our leading brands include Heliocare® and DerMend®.

FotoFinder Systems, Inc | FotoFinder offers a variety of professional photo solutions for face and body, mole mapping and dermoscopy. Our mission is to bring the skin into the picture brilliantly and make medical photography high-performance, time saving, and intuitive.

Fotona | Fotona produces award-winning lasers in aesthetics, dermatology, and surgery, leading the industry in quality and durability.

Galderma | Dating back to 1961, Galderma is now present in 80 countries with an extensive product portfolio to treat a range of dermatological conditions. The company partners with health care professionals around the world to meet the skin health needs of people throughout their lifetime. Galderma is a leader in research and development of scientifically-defined and medically-proven solutions for the skin, hair and nails. Strategic brands in the U.S. include Epiduo® Forte, Oracea®, Clobex®, Differin®, Mirvaso®, MetroGel®, Soolantra®, Vectical®, Tri-Luma®, Cetaphil®, Benzac® Acne Solutions, Restylane®, Restylane® Silk, Restylane® Lyft, Dysport®, and Sculptra® Aesthetic. For more information, please visit www.galdermausa.com.

Genentech | Considered the founder of the biotechnology industry, Genentech has been delivering on the promise of biotechnology for more than 35 years.

Hydrofacial | The HydraFacial MD® resurfacing procedure thoroughly cares for your skin, providing cleansing, exfoliation, extractions, and hydration, including Vortex-Fusion® of antioxidants, peptides, and hyaluronic acid. The HydraFacial MD® is a non-invasive, non-surgical procedure that delivers instant results with no discomfort or downtime. The procedure is immediately effective.

HydroPeptide | HydroPeptide has over a decade of experience creating award-winning products. Our peptides combined with botanical stem cells and moisturizing ingredients create the perfect combination of science and aesthetics. Our people and products embrace the highest levels of performance and integrity while delivering a beautiful experience to everyone we touch.

InMode | InMode's technology advancements are the new gold standard for aesthetic medicine. InMode has revolutionary non-invasive options for fractional skin treatment and contraction (Fractora), skin tightening (Forma&Plus), ultra-fast diode hair removal (Diolaze), peak power photofacial for skin pigmentation and vascular lesions (Lumecca), and cellulite reduction/body contouring (BodyFX).

Integrated Derm Group | Integrated Dermatology Group (IDG) offers a unique opportunity for dermatologists to become partners, even right out of residency, by owning and operating an existing practice. Practice great medicine, and we take care of the rest. For more information visit our website www.MyDermGroup.com.

Jan Marini | Jan Marini Skin Research is a recognized leader in providing medically based topical skin care solutions to physicians and skin care professionals.

JDD | The Journal of Drugs in Dermatology (JDD) is a full-color, peer-reviewed publication indexed with MEDLINE® / PubMed®, offering one of the fastest routes for the dissemination of dermatologic information. We present original articles, award-winning case reports and timely features pertaining to new methods, technologies and drug therapy in anti-aging, aesthetic and medical dermatology. JDD is complimentary to US-based dermatologists, dermatology residents and fellows, physician assistants, and nurse practitioners. JDDonline.com

La Roche Posay | Recommended by more than 25,000 dermatologists worldwide, La Roche-Posay offers a unique range of daily skincare developed with dermatologists to meet their standards in efficacy, tolerance and elegant textures for increased compliance. For additional information, visit www.laroche-posay.us.

LEO Pharma | LEO Pharma helps people achieve healthy skin. By offering care solutions to patients in more than 100 countries globally, LEO Pharma supports people in managing their skin conditions. Founded in 1908 and owned by the LEO Foundation, the healthcare company has devoted decades of research and development to delivering products and solutions to people with skin conditions. LEO Pharma is headquartered in Denmark and employs around 4,800 people worldwide.

Lutronic | Lutronic, a leading innovator in advanced aesthetic and medical laser and related technology, was established in 1997 to bring intuitive, robust, versatile devices that are affordable and efficacious to the worldwide medical community. Committed to improving medicine, Lutronic partners with key opinion leads to advance science and ensure the efficacy of its systems. All systems are versatile and offer multiple settings and treatment options for customized treatments, which optimize outcomes for a wide variety of conditions and treatments including melasma, tattoo removal, soft tissue incision, vascular lesions, hair removal, wrinkle reduction, rejuvenation, body/face contouring, chronic pain, healing and more.

Merz Aesthetic | Merz North America is a specialty healthcare company that develops and commercializes innovative treatment solutions in aesthetics, dermatology and neurology in the U.S. and Canada.

Modernizing Medicine | Modernizing Medicine is transforming how healthcare information is created and utilized with its Electronic Medical Assistant® (EMA™), a cloud-based, specialty-specific electronic medical record (EMR) system.

NeoStrata | NeoStrata Company, Inc. develops and markets scientifically advanced, clinically proven anti-aging skincare formulated to address specific patient needs.

Neutrogena | NEUTROGENA® advances skin and hair care science through continuous support of the medical community and through the development of clinically proven products that deliver real results to physicians, nurses and patients. Please visit our website for dermatology professionals at www.NeutrogenaMD.com for information about recent additions to the NEUTROGENA® product line.

Next Steps | Next Steps in Derm is a complimentary online resource center built to meet your needs as a new physician in the field of dermatology. This resource has been carefully curated from the experience of expert physicians and with the advice of leading Thought Leaders in the industry. Next Steps in Derm provides you with the tools and guidance you need to develop your practice and navigate your career - including monthly articles and videos, a newsfeed containing trending dermatology news, live webinars and Q&A sessions, a quarterly 'Best Of' booklet featuring most-read articles from the website, and access to a monthly eNewsletter that brings the latest articles to your inbox. About our Exhibitors

2016 EXHIBITORS

	Nextech Nextech is the customizable, fully-integrated EMR and practice management provider of Dermatology solutions that improves efficiency and maximizes patient volume. Tailored to work alongside the workflow of any dermatologist, Nextech is committed to your practice's long-term success. To learn more about the top-ranked specialty solution, visit www.nextech.com .
	Novartis Novartis Pharmaceuticals Corporation researches, develops, manufactures and markets innovative medicines aimed at improving patients' lives. We offer a broad range of medicines for cancer, cardiovascular disease, endocrine disease, inflammatory disease, infectious disease, neurological disease, organ transplantation, psychiatric disease, respiratory disease and skin conditions. The company's mission is to improve people's lives by pioneering novel healthcare solutions.
	P & G Procter and Gamble partners with leading health care professional and scientists to develop breakthrough products that help improve the quality of patients' lives.
	Pierre Fabre Pierre Fabre USA is a global leader in dermatological skincare. The brands include: Eau Thermale Avène®, a dermo-cosmetic brand based on clinically-proven thermal spring water, dedicated to sensitive skin; Glytone®, a skin rejuvenation system offering highly effective skincare regimens, through in-office procedures (glycolic acid and salicylic acid peels), as well as at-home treatments.
	PriyanaMD PriyanaMD was founded for the purpose of developing and commercializing clinically tested skincare for the medical aesthetic market. We develop custom skincare formulations proven to be safe and effective for those seeking healthy skin using Antioxidants, Peptides and Botanical Extracts. PriyanaMD is a paraben free, physician-dispensed company offering a full range of Skincare products. HylaSilk, our top selling HA serum, was recently featured in New Beauty Magazine as "A primer that makes a difference in skin!", while VersaLift eye cream continues to be our top seller. PriyanaMD is dedicated to develop leading anti-aging product formulations and support the medical aesthetic community.
	Promius Pharma Promius Pharma is a new face in the dermatology community and will provide fresh, innovative products and ideas that meet unmet physician and patient needs.
	RegimenMD RegimenPro™ is a proprietary web based transactional dispensing network operated by RegimenMD, LLC to connect skincare doctors, patients, and cosmeceutical product manufacturers. RegimenPro™ supports the regimen recommended by the doctor and facilitates skincare education and manages drop ship sales and refills of skincare product regimens to patients of affiliated doctors.
	Restorsea Restorsea PRO is a new anti-aging skincare line exclusive to MDs. Clinically proven to reduce the appearance of fine lines, wrinkles and age spots. Anchored by a proprietary enzyme (Aquabeautine XL®, INCI: Hydrolyzed Roe) that allows for continuous exfoliation without any inflammation. Supported by peer-reviewed and published clinical studies. Formulated with only naturally derived and non-toxic ingredients.
	Sanovaworks SanovaWorks is the healthcare communications company of choice for progressive custom solutions that drive results.
	Sciton Sciton is a leading manufacturer and provider of superior laser and light based aesthetic solutions. Sciton systems are designed to grow with your practice. When the needs of your practice expand, you can upgrade your existing system with new and innovative modules allowing you to offer more treatment options. Stop by the Sciton booth to learn more about the latest laser technology with minimal downtime & maximum results using the world's first and only hybrid fractional laser.
	Sensus Healthcare Sensus Healthcare is focused on making proven non-melanoma skin cancer and Keloid solutions more accessible to patients. Our dedicated superficial radiation therapy (SRT) systems are designed specifically to provide an alternative to surgical procedures for basal cell and squamous cell carcinomas. In addition, the SRT-100 provides effective solutions for the treatment of Keloids. Numerous clinical publications have demonstrated that combining SRT with surgery is the most effective and successful way to treat and rid Keloids.
	SharpLight Technologies At SharpLight Technologies, we are the leaders in innovative med-aesthetic solutions. With our comprehensive family of products, technology and support services, SharpLight has been providing physicians with the ability to perform over 20 types of invasive and non-invasive treatments in over 50 different countries, worldwide.
	SkinCeuticals SkinCeuticals professional skin care, formulated to correct signs of aging, protect healthy skin, and prevent future damage, is used for daily homecare and to complement aesthetic procedures.
	SolutionReach Solutionreach is a cloud-based platform for revolutionizing patient relationships and optimizing the patient experience, with a powerful array of tools and services to help providers easily acquire, retain, educate and reactivate patients.
	Suneva Medical Suneva Medical, Inc. is a privately-held aesthetics company focused on developing, manufacturing and commercializing novel, differentiated products for the general dermatology and aesthetic markets. The company currently markets Bellafill® in the US and Canada; Artefill® in Korea and Singapore; Regenica® in the U.S and Canada; and ReFissa® in the U.S. For more information, visit www.sunevamedical.com .
	TaroPharma Taro is a multi-national, science-based pharmaceutical company dedicated to meeting the needs of its customers through the discovery, development, manufacturing and marketing of the highest quality healthcare products.
	George Tiemann George Tiemann & Co. has supplied fine surgical instruments since 1826. For over 187 years we have supplied the medical profession with high quality, correctly styled products. In addition to our own products, we represent other manufacturers and importers. Therefore, we welcome inquiries concerning instruments not shown in our catalog. While we feel that the patterns shown are the most widely used and accepted, occasionally, another style may be preferred. In this event, we can usually supply the instrument if either a catalog number, sample, or a brief description can be provided.
	Topix Topix Pharmaceuticals, Inc. has been dedicated to improving skin health and providing advanced skin care since 1981. The company's primary therapeutic focus is dermatology with an innovative skin care product portfolio utilized in treating a wide array of skin conditions.
	Vision Med Visionmed is a company that's engaged in all licensing and trading activities relating to pharmaceuticals, biotech, medical devices, beauty products and equipments in various therapeutic sectors in the regulatory markets.
	Viviscal Professional At Viviscal® we believe that everyone has the right to beautiful hair and we have made it our mission to revolutionize the way people treat thinning hair. We have combined over 20 years of research and expertise to create a complete 'Hair Growth Program'. Viviscal® Professional dietary supplements are scientifically formulated with the exclusive, and clinically proven marine complex, AminoMar™, which helps to nourish thinning hair and promote existing hair growth from within, as well as help nourish hair that is prone to breakage. Viviscal® Professional supplements are suitable for both women and men, and for all hair types. Viviscal Professional is only sold through salons and doctors' offices.

ORLANDO
DERM AESTHETIC | MIAMI
& CLINICAL | 2017
CONFERENCE

WHERE: NATIONAL DORAL MIAMI

WHEN: JANUARY 13-16, 2017

ORLANDODERM.ORG

Accreditation Information

Program Overview & Statement of Need

The field of dermatology is constantly evolving. Physicians and medical professionals must keep current on emerging dermatological issues, techniques, and skills for treating them in order to safely and effectively meet their patients' needs. ODAC delivers a comprehensive and compelling look at the practice of dermatology. With a strong focus on timely issues affecting dermatological practice, the conference provides attendees with an understanding of the evolution of both clinical and aesthetic dermatology as a medical and surgical discipline.

Educational Method

The ODAC conference consists of didactic lecture presentations, case study review, case-based learning in small groups, simulation-based medical education, live demonstrations and hands-on live patient injections. The ODAC program also has several question and answer opportunities including the use of real-time, interactive audience response systems.

Target Audience

This CME activity is designed for practicing dermatologists, dermatology residents and fellows, physician extenders in dermatology, and other physicians with an interest in dermatology.

Learning Objectives

Upon completion of this live activity participants should be able to:

- Summarize current and emerging therapies that hold promise for the effective treatment of skin cancers including actinic keratosis, basal cell carcinoma and melanoma
- Define intrinsic and extrinsic factors of the normal aging process in patients with all skin types
- Select and formulate the appropriate aesthetic treatment plan using neurotoxins, dermal fillers, laser and light-based energy therapy technologies and cosmeceutical products in patients of all skin types who seek improvement in facial and skin appearance
- Compare patient selection, choice of injectable products and techniques required to avoid potential complications and achieve optimal patient outcomes
- Express current understanding of the pathophysiology of acne as it relates to effective diagnosis and treatment
- Discuss current theories on the pathogenesis of rosacea including the identification of genetic factors and gene loci that predispose affected patients to a rosacea phenotype
- Analyze evidence-based data on acne treatment options in order to improve treatment outcomes and improve patient adherence to therapy

- Examine emerging clinical and therapeutic science insights into the pathogenesis and effective management of atopic dermatitis
- Summarize the recently published AAD clinical guidelines on the management of atopic dermatitis
- Discuss the role of the innate and adaptive immune system function in normal skin and how changes in the immune system may contribute to inflammatory disease
- Assess evidence-based data on the relationship between psoriasis comorbidities and therapeutic selection
- Identify the psoriasis patient population that would benefit most from treatment with biologic response modifiers
- Indicate the types of superficial fungal infection presenting in the dermatology setting
- Formulate optimal treatment plans for difficult to treat onychomycosis and cutaneous superficial fungal infections including tinea pedis, tinea cruris and tinea corporis

Category 1:

Creighton University Health Sciences Continuing Education designates this live activity for a maximum of 27.75 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only credit commensurate with the extent of their participation in this activity.

AAPA accepts AMA category 1 credit for the PRA from organizations accredited by ACCME.

Nurse CE:

The Creighton University Health Sciences Continuing Education designates this activity for 27.75 contact hours for nurses. Nurses should claim only credit commensurate with the extent of their participation in the activity.

Nurses licensed in Iowa and California: This activity was planned and developed in accordance with the continuing education standards of the American Nurses Credentialing Center (ANCC). The Iowa Board of Nursing and the California Board of Nursing will honor ANCC continuing education credits for face-to-face programs held outside Iowa and California, or for ANCC-approved online recorded courses taken in a self-study format.

Accreditation Statement:

This activity has been planned and implemented by Creighton University Health Sciences Continuing Education and the Physicians Continuing Education Corporation for the advancement of patient care. Creighton University Health Sciences Continuing Education is accredited by the American Nurses Credentialing Center (ANCC), the Accreditation Council for Pharmacy Education (ACPE), and the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for the healthcare team.

Special Needs

If you need special accommodations due to a disability, or for an alternative form of course materials, please contact us at info@orlandoderm.org at least 14 days prior to the program. ODAC fully complies with the legal requirements of the ADA and the rules and regulations thereof.

Disclosure of Commercial Support

This live activity is supported by educational grants provided by: Allergan, Inc., Celgene Corporation, Genentech, Inc., Leo Pharma Inc., Johnson & Johnson Consumer Inc., Merz North America, Inc., and Valeant Pharmaceuticals North America LLC.

JOINTLY PROVIDED BY

Taking a **GREENER** direction, the Orlando Dermatology Aesthetic & Clinical Conference is partnering with the Omni Orlando Resort to incorporate initiatives for **Recycling, Reusing, and Reducing** during the 2016 conference.

ODAC's efforts to Go Green this year include:

RECYCLE

Recycling bins located throughout the ODAC meeting space for recycling paper, plastic, bottles, and cans.

REUSE

Conference items repurposed for reuse at other events including lanyards, bags, and tablets -- you may recognize the registration bags from last year.

REDUCE

The production of paper materials produced by ODAC has been greatly limited this year to reduce waste.

The Omni Orlando Resort has also taken the path to be a **GREENER** hotel. Below are just a few initiatives to improve efficiencies in the use of water, energy and waste.

WATER

Use of ozone solution in laundry, low flow faucets and showerheads in guest rooms, and new toilets that use 1.4 gal/flush

ENERGY

Computerized lighting control system for exterior lighting, T-8 energy efficient bulbs in the heart of the house and administrative offices, and fluorescent bulbs in certain enclosed lighting fixtures

WASTE

Recycle white office copy paper, corrugated cardboard, newspapers, plastic bottles, toner, ink, cartridges, and oil and grease from kitchens; purchase recycled copy paper; and utilize bulk purchasing programs

We value your feedback! Please take the survey on the conference iPad to let us know what more we can do and to vote on how **ODAC** can **GO GREENER** at future meetings.
