ORLANDODERM.ORG
The ORLANDO DERMATOLOGY AESTHETIC & CLINICAL (ODAC) conference is a distinguished event designed to meet the needs of clinical and aesthetic dermatology practitioners in the 21st century.

Founded by Dr. Perry Robins in 2003, ODAC focuses on the quality improvement of patient care by increasing the knowledge and skill of both novice and experienced dermatologists, educators, residents and department chairs. ODAC has a rich history of investing in the future of dermatology. In addition to educating experienced dermatologists in the field, ODAC annually hosts the Advanced Resident Training and Education (ARTE) scholarship program, attracting the best and brightest up and coming physicians from across the country. ODAC’s alignment with the Journal of Drugs in Dermatology (JDD), our primary media partner, further cements this commitment to educational excellence.

ODAC has a strong commitment to aligning with your overall corporate marketing and educational objectives to deliver access to dermatology practitioners and young physicians on the brink of brand loyalty, decision-making and practice development.

The event delivers a unique educational program and boosts state-of-the-art technology through Live streaming video for special presentations, real-time surveys, feedback forms, graphical data and live Q&A. This information is compiled and used to help organizers and sponsors understand the needs of dermatologists and residents.
